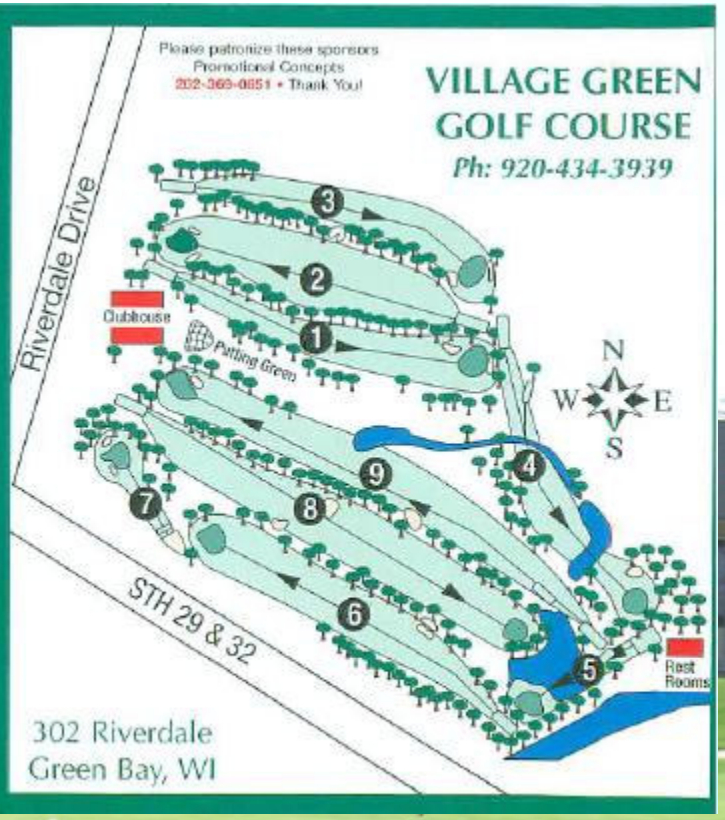
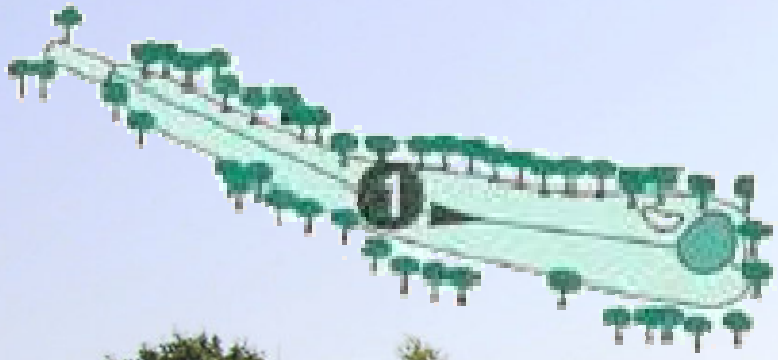
SCORER_____ ATTEST_____ DATE_____



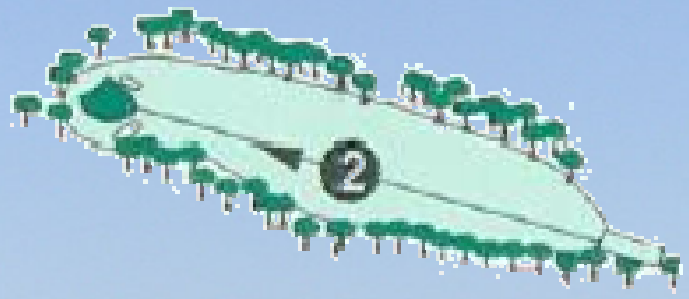
Village Green Golf Course is a par 36 course that winds through rolling hills and tree lined fairways. The course is great for beginners and experienced golfers alike. Hole #5, a 161 yard par 3, is the course's signature hole. Holes #8 and #9 present a challenging finish with a combined yardage of 1,050 yards. Call 920-434-3939 today to make your tee time.



Hole #1
Par 4 – 385 Yards

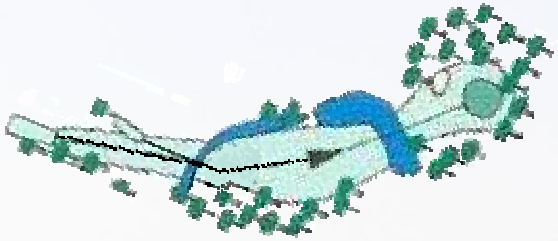
The dog-leg left opening hole features a slight down hill tee shot. The approach shot needs to carry all the way to the green and avoid the bunkers surrounding the green on the back and left sides. Approach shots left short may roll back into a deep gully just in front of the green.

Hole #2
Par 4 – 355 Yards



This shorter par four is wide open. Avoid the bunker on the right and the gully on the left and you should be in good shape. Bunkers border the green on the left and right side.

Hole #3
Par 4 – 387 Yards
The smart play on this dog-leg right par four is to lay up with a three or five wood and avoid the large oak tree on the left off the tee. Your approach shot is to a slightly elevated green with bunkers on the back and right sides of the green.



Hole #4
Par 4 – 380 Yards

For the second consecutive hole, players must layup short of the water with a five wood or long iron. Avoid hitting your tee shot to the left as the water runs down the left side of the fairway, hidden from the tee box. Your approach shot is to an elevated green with a bunker to the left.

Hole #5

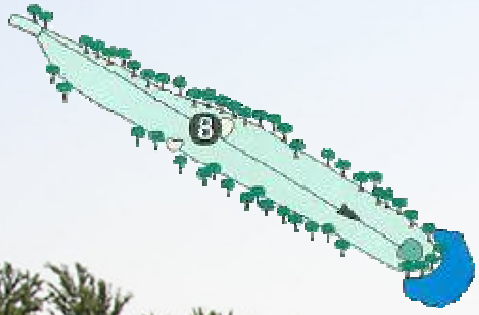
Par 3 – 161 Yards

This par three is Village Green's signature hole. Golfers must carry their shot all the way to the green over the water hazard in front of the green. There are no bunkers, but if the tee shot is too long, players will have to contend with trees on the back of the green which slopes towards the water.

Hole #6
Par 4 – 400 Yards
This is the longest par four on the course, but is relatively wide open. If you avoid the tree near the tee box and the out of bounds down the left side of the fairway on your tee shot, you should be in good shape. Your approach shot is to an elevated green.

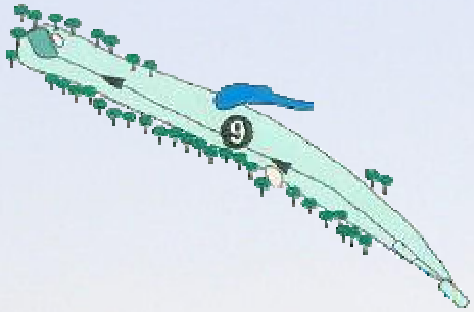
Hole #7
Par 3 – 141 Yards

The tee shot on this shorter par three does not look very intimidating, but that all changes once you get to the green. Miss the green on your tee shot and you will have a difficult chip on a steep sloped green. Two putts are not guaranteed on this hole.



Hole #8
Par 5 – 500 Yards

This is the first of two consecutive par fives. The tee shot on this hole looks open, but the two fairway bunkers pose a significant challenge. Long hitters can carry the bunkers, while others may choose to lay up short. The green is not surrounded by any bunkers, but a long approach shot may land in the water or under one of the trees behind the green.



Hole #9
Par 5 – 550 Yards

The tee shot on this challenging finishing features a wide landing area. Long hitters may be able to reach the water or the bunker on the left off the tee. Your approach shots lead up to a highly elevated green with a bunker on the left side.
