Leigh Ann Wagner Kroening
Administrative Assistant
Village of Howard Wisconsin
2456 Glendale Avenue
Green Bay, WI 54313

Dear Leigh Ann,

My wife and I are very excited and support the extension of the Green Bay Metro public bus service into the Village of Howard. We have lived in Howard since 1993 and have been supportive of public transportation to the Village ever since. I appeared before the Village Board several years ago at a public hearing for the then completed comprehensive plan. I questioned at the time why the issue of public transportation wasn't being properly addressed in the plan? It was probably 10 years or so ago. So you see that residents of the Village have supported extending the Green Bay Metro to the Village for some time. I don't have to go into all the benefits public transportation plays in our lives but it sure beats firing up the beast when there is an alternative available.

I regret we were unable to attend the hearing last week and will be gone again for the hearing this coming week. I hope you can incorporate our positive comments on extending the Green Bay Metro bus service to the Village.

We have been retired almost 10 years and I have knocked on doors in the Village in support of roundabouts and would be willing to do the same for public transportation. Thank you for your time and great work for the Village of Howard.

Sincerely,

Tim & Kathie Rasman
