To: Howard Fire Dept.

We would like to extend our sincere appreciation for your assistance with Bay Port High School's Every 15 Minutes Program. Putting this event on is no small feat, and we couldn't do it without the generosity of the community and the support they show toward our school district. From the financial support to the donation of time and resources, we truly appreciate all that went into making this program a success in sharing a very important message to our student body.

As participants of this program, we got a first-hand idea of the tragedy that results from a drunk driving crash. We were able to step back, put ourselves in the positions of the drunk driver, deceased victim, injured victim, and grieving friend/family member, to gain a true appreciation of the impact of such an incident. We understand that life cannot be taken for granted, and that the choices we make affect not only us, but our friends, family members, school, and community.

Although not involved in the production of this program, we hope that we were able to accurately convey this message to our classmates who watched our program. We hope that our efforts cause them to think about the decisions they make and the potentially deadly consequences that could result.

A video of our program will be on our web site in the coming weeks, www.hssd.k12.wi.us, and we invite you to check it out. Once again, thank you for your support of Bay Port's Every 15 Minutes Program; trust that you made a difference!

Sincerely,
