BACKGROUND:

The applicant is proposing to construct a 24-square-foot identification sign for the apartment complex. The sign would be located adjacent to the western driveway.

PLANNED DEVELOPMENT DISTRICT STANDARDS *Sec. 50-744.* - The planned development (PD) zoning district shall be used as an alternative to the permitted uses and regulations applicable to those lands which may be hereafter zoned planned development (PD) by the village board. All basic zoning district regulations for lands "over-zoned" as planned development (PD) shall continue in full force and effect, and shall be solely applicable, until such time as the village board grants final planned development (PD) zoning district approval as hereinafter provided.

The Zoning Ordinance requires that *"The Plan Commission shall not recommend and the Village Board shall not approve a conditional use unless findings are first made, based on evidence presented, that the following standards are met."*

1. The conditional use shall not be detrimental to or endanger the health, safety, morals, comfort or general welfare of the public.
2. The conditional use shall not be injurious to the use and enjoyment of other property in the immediate vicinity for purposes already permitted, nor shall it substantially diminish or impair property values within the neighborhood.
3. The conditional use shall not impede the normal and orderly development and improvement of surrounding property for uses permitted in the zoning district.
4. The exterior architectural appeal and functional plan of proposed buildings and structures shall not be so at variance with existing buildings and structures, or buildings and structures under construction in the immediate area, or the character of the zoning district, as to cause a substantial depreciation in property values within the neighborhood.
5. Adequate utilities, access roads, drainage and necessary facilities are in place or will be provided.
6. Adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets.

Staff Recommendations

It is requested the Plan Commission open the public hearing and ask the applicant to present his request. Subsequently, the Plan Commission should invite comments from the public and then close the public hearing.

The Village staff is requesting after the public hearing is closed, the Plan Commission review the applicant's request and make a recommendation to the Village Board based on two criteria:

The Plan Commission must decide if the proposed changes are consistent with what you want to see for development in this area and if the new layout is adequate.

Staff recommends the sign be set back a minimum of 10 feet off the property line for vision clearance. The standard setback for this type of sign is 15 feet.
