FYI below, I wanted to pass this email along. It's nice to receive positive comments from the public occasionally especially given the magnitude of storm event.

Leigh Ann, please put a copy of this email in Trustee Speaker's mailbox.

Respectfully,

Geoffrey Farr P.E.
Director of Engineering
Department of Public Works
Village of Howard, Wisconsin

I don't know if you are the correct person to be writing to, so if you are not, please forward this to that person. My garbage/recycling day is on Wednesday. One week ago, we as a village received a 17.8 inch snowfall. My recyclables were not picked up that day and that was not good for me as my container was completely full. I would have been stranded that day from work if not for my coworker picking me up that day in his 4X4. That was a really tough day for

the Village of Howard. However, the next day I decided to put my recyclables out again on the chance that maybe it would be picked up. What an amazing village I live in. In less than 24 hours after the worst March snowstorm in a lifetime, my little side street was plowed, my recyclables picked up, and every street I needed to use completely cleared of snow. I applaud each and every person that was able to turn an unbelievable blizzard into almost a dream in less than one day. I thank you all. You did an amazing job.
